

What other advantages can you see with this innovation?

Can you think of the advantages to using this type of drilling? Here are a few:

- **Flexibility and less disruption:** This drilling can take place under a park or golf course without disturbing the surface
- **More crude oil and natural gas is produced:** The pipes can extend a long way into the producing rocks
- **Cheaper to drill, making the product cheaper for consumers:** Instead of having many well heads, there is just one
