

3 Investigate different types of engineers

Is an engineering career in your future?

1. Fill in the chart with descriptions and education requirements for three different engineers.

Choose one engineer and create a one-minute video about this job. Prepare a script and practice. Save your video.

Your video should start with these words:

“The natural gas and oil industry needs engineers. One type of engineer who works in the natural gas and oil industry is _____.”

Engineer type	Description	Education
