

# 8 Study the Engineer's code of ethics and relate it to the Scout Oath and Laws

## Obligations of the Order of the Engineer

*I am an Engineer. In my profession I take deep pride. To it, I owe solemn obligations.*

*Since the Stone Age, human progress has been spurred by the engineering genius. Engineers have made usable nature's vast resources of material and energy for Humanity's benefit. Engineers have vitalized and turned to practical use the principles of science and the means of technology. Were it not for this heritage of accumulated experience, my efforts would be feeble.*

*As an Engineer, I pledge to practice integrity and fair dealing, tolerance and respect, and to uphold devotion to the standards and the dignity of my profession, conscious always that my skill carries with it the obligation to serve humanity by making the best use of Earth's precious wealth.*

*As an Engineer, in humility and with the need for Divine guidance, I shall participate in none but honest enterprises. When needed, my skill and knowledge shall be given without reservation for the public good. In the performance of duty and in fidelity to my profession, I shall give the utmost.*

*Each engineer who takes this oath wears The Engineer's Ring, a stainless steel ring, worn on the fifth finger of the working hand by engineers who have accepted the Obligation of an Engineer in a Ring Ceremony.*

## Scout Oath

*On my honor, I will do my best, to do my duty to God and my country and to obey the Scout Law; to help other people at all times; to keep myself physically strong; mentally awake, and morally straight.*

## Scout Law

*A Scout is trustworthy, loyal, helpful, friendly, courteous, kind, obedient, cheerful, thrifty, brave, clean and reverent.*

How is Order of the Engineer related to the Scout Oath and Laws?

Ways they are alike	Ways they are different
